

## **GOLF PUTTER ALIGNMENT ATTACHMENT ASSEMBLY**

### **ABSTRACT OF THE DISCLOSURE**

A golf putter alignment attachment assembly which includes an alignment device. The device is attachable by a golfer (or other individual or alternatively the golf putter manufacturer) to the club head so that the device extends outwardly therefrom and generally perpendicular to the club head face. When attached, the putter can be oriented, visually using the alignment device, by the golfer relative to a golf ball to assist the golfer in aiming the ball towards a golf hole while putting.
